***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Pierce '01.

Pierce shows a planetary transmission including three consecutive planetary gear sets, wherein a second sun gear 38 is directly connected to an input shaft 28, a first sun gear 46 is clutched to the input shaft by first clutch C7, and braked to the housing by first brake C2, a planet carrier 50 is connected to the input shaft by second clutch C3 and braked to the housing by second brake B1, an output shaft 62 is directly connected to the second carrier 42 and first ring gear 48, and third sun gear 54 is connected to the housing by third brake B1/C6. The second brake is activated in first and reverse gear ratios.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are replete with errors of antecedents, wherein the word “the” is used when “a” or “an” is appropriate. For example, in claim 11, “the input shaft”, “the output shaft”, and

Art Unit: 3681

“the sun gear” are but three examples of numerous instances in the claims. Correction and revision is required.

*Claim Objections*

Claims 18-20 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claims are identical to claims 15-17.

*Allowable Subject Matter*

Claims 12-15 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
